

Waters coming
I can hear the roar
Its filled the streets
And its rising to our doors
5 generations have called this home now its about to float away
Can we overcome this
We've got to find a way
Gather round
Arm and arm and hand in hand
Were broken down
But wont let it be the end
Well be damned to let mother nature take our house
All hands on deck
This flood won't bring us down
Neighboring towns watched in shock the Dairy Queen go under on live at 10
But true disaster it's hard to comprehend
Still you came in spades just to bail us out
Stay the course
I think i see solid ground
Gather round
Arm in arm and hand in hand
Were broken down
But wont let it be the end
Well be damned to let mother nature take our town
All hands on deck
This flood won't bring us down
Gather round
Arm in arm
Hand in hand
Im broken down
But wont let it be the end
I'll be damned to let this river take my town
All hands on deck
This flood won't bring us down
Bring us down
